

CLOUDBURST AT GOLDFIELD

At 2 o'clock this afternoon a cloudburst broke over Goldfield and filled the streets with water to a depth of several feet. The rain came down in solid sheets for about fifteen minutes and then subsided. Reports from the scene describe the flood as bad as last year, but no particulars could be had at the hour of going to press.

So far as could be learned at 3 o'clock the water subsided without causing any loss of life. The torrents poured down east and west gulches that had not been rebuilt since last year's visitation.

SUPREME CLASH OF THE ARMIES IN FRANCE IS RAGING

VIOLENT ATTACKS OF GERMANS REPULSED AT EVERY FOOT OF THE LINE.

(By International News Service.) LONDON, Sept. 28.—Violent attacks are being delivered by the Germans against the lines of the allies between the districts of Aisne and Argonne. These onslaughts have been repulsed. The supreme clash denoted on the approaching close of the fortnight of practically the unceasing battle in France has now been in progress forty-eight hours without decisive results. Both claim slight gains. There have been some hand to hand conflicts.

It is frankly admitted at headquarters that what is thought is a decisive phase of the conflict has been reached. The allies are surprised at the continual attacks of the Germans and say it is impossible to predict when the struggle will end. "A break must come, however," said a high official. "It is almost impossible that an enemy can withstand much longer the pressure of the allies. Their recuperative power surprises us. Their repeated counter attacks are most amazing. We know they have suffered heavily, yet their attacks apparently are as strong as ever. There is a hard task before us, but our troops realize the final result will be in their favor."

A Rome dispatch says 300,000 troops are assembled at Pola, Austria, to resist an attack from the sea. Advises indicate the struggling in Russian Poland rivals the battles of Marne and Aisne. The main body of Russians moving toward Posen from the frontier is believed to be preparing to march on Berlin. The Russian army in Galicia is pushing successes against the Austrians and moving westward with expectation of meeting Austrians and Germans at Cracow.

KAISER HAS FUNDS TO CONTINUE WAR FOR OVER A YEAR

NEW LOAN A GREATER SUCCESS THAN GOVERNMENT ANTICIPATED.

(By Associated Press.) BERLIN, Sept. 28.—The war loan is such a success that with the various resources from which the government can derive a war revenue, it is possible for Germany to continue the struggle one year with the money in sight. The fund complete amounts to one billion two hundred and fifty million dollars.

Electricity Plays Important Part

(By Associated Press.) LONDON, Sept. 28.—Electricity is a marked feature of the Austrian defense on the northern frontier. Wire is strung over all strategic points and connected with a power plant.

TOM MURPHY MAKES GOOD STRIKE TWO OTHERS READY TO DRIFT

The Tonopah gold belt is coming to the front very rapidly with strikes of richness and strength that infuse new life into late leasers who have been plugging away steadily without getting results. On the Thomas D. Murphy lease, just below the crest of the hill, marked by the huge outcropping at a depth of 15 feet there was opened yesterday a pay streak 18 to 20 inches wide which will run at the rate of \$60 to \$80. This was encountered with the last shot Saturday night and the next shot yesterday afternoon showed the ledge to be wide.

ehing without any apparent diminution of values. The ledge is a solid body of hematite and the value runs all the way from three ounces to \$150. Interested with Murphy are Bob Murto and George Allen. The ledge is dipping to the west at an angle of 60 degrees. The Glasgow lease opened last night eight inches of an apparently strong vein. Al. Wardle on the Saunders & Sorenson ground down on the flat also opened eighteen inches of good looking quartz with high values. This is the second lease below McQuillan's and adjoins the Tennessee Kid's. Free gold shows freely in brown oxidized hematite of iron.

The Jarvis and Daugherty, Mooney & McNamara leases reached a depth of 50 feet yesterday and preparations were immediately begun to drift on the strong ledge showing in the shaft. Campbell & Kelly are experimenting with the ores by running them through a Tetrault mill without trying to sort the rock, but rather preferring to take the general run of the rock as it is shot down. The first mill test, including waste dirt of the dump, ran \$12 a ton and it is expected the foundrymen will run some of their sorted high grade to see if the mill will save the values.

BISHOP SPALDING IS KILLED BY AUTO

EPISCOPALIAN LEADER RUN DOWN BY AN 18-YEAR-OLD GIRL.

Bishop Franklin Spencer Spalding, head of the Episcopal church in Utah and Nevada, was almost instantly killed shortly after 9 o'clock Friday night in Salt Lake when he was struck by an automobile driven west on South Temple street, near E street, by Miss Adrienne King, the 18-year-old daughter of Judge William H. King. After striking Bishop Spalding, the heavy Lozier touring car swung across to the south side of the street and crashed into a steel trolley tower immediately opposite E street. Miss King, fainting after setting the emergency brakes of the machine in her effort to avoid hitting the bishop, when the car crashed into the tower she was thrown against the steering wheel and injured about the chest. Her wrist was cut by flying glass from the shattered wind shield.

MUSCOVITE AVALANCHE SPREADS IN AUSTRIA STUBBORN FIGHTING ON THE WEST LINE

(By International News Service.) PETROGRAD, Sept. 28.—Austrian troops have been routed from the third line of defense in Galicia. Russians approaching Tarnow only, fifty miles east of Cracow, captured Uzsok and Szaviana, Hungary towns on the southern slope of the Carpathian mountains. They captured the town of Przemyśl at the point of the bayonet, but the garrisons of some of the forts there continue to hold out.

This is given in the statement of the general staff today to show the Russian steam roller is progressing with amazing rapidity and only a stiff defense at Cracow and along the line from there to Thorn can prevent the Russians from being well on the way to Berlin in a very short time. The general staff is rushing the army forward with all haste, hoping to avoid a winter campaign by capturing the German capital.

(By International News Service.) BERLIN, Sept. 28.—Official statement: "The offensive movement of our troops continues without any severe check. Heavy losses have been inflicted upon the enemy by bayonet charges and they had to bring up their reserves to strengthen their lines. At the eastern end of the battle line our artillery silenced part of the

forts around Verdun and we succeeded in crossing the Meuse. Our passage was sharply resisted, but in the center we continue gaining. On the west we hold all the ground we gained."

The following was issued on the situation in the eastern theater: "German forces advanced more than 2 miles in the Suwalki district, though the Russians are making determined resistance. We captured a number of guns and many prisoners."

(By Associated Press.) BERLIN, Sept. 28.—Military authorities estimate the war is costing Germany more than five million dollars a day.

NEVADA MAN TIES CHAMPION IN OPENING INTERSTATE SHOOT

Charles H. Miller, of the Lucky Boy mine, tied the world's champion yesterday in the opening shoot of the black rock tournament with a score of 47 out of a possible 50. In the shoot-off Huntley took the first prize. For the second prize Warren, Pittman and Halburton tied, breaking 46 targets each. Warren won in the shoot-off and Bradshaw won third prize, breaking 45 targets. For fourth prize Peace and Blackburn tied, making 44 targets each and Blackburn won in the shoot-off. Fifth prize went to Cowden for breaking 42 targets. For sixth prize Prouty, Youngs and Jones tied with a score of 41. Jones winning the shoot-off. Addison won seventh prize, breaking 40 targets. Richards and Regan tied for the eighth, breaking 38 targets.

The event roused the greatest interest and the attendance of spectators was far ahead of all expectations, the crowd remaining to the last and manifesting intense interest in the keen competition. It was a great day for Tonopah, the gunmen of this camp capturing seven out of the eight prizes. Altogether 35 shooters took part.

The only event was the merchandise shoot calling for 50 singles at 16 yards. The results were as follows: First, Sam Huntley, thermos set; second, Warren, of Tonopah, gun case; third, Fred Bradshaw, meerschaum pipe; fourth, W. H. Blackburn, \$5 in merchandise; fifth, J. C. Cowden, Stetson hat; sixth, O. H. Jones, Stetson hat; seventh, cleaning rod, E. H. Anderson; eighth, Richards and Regan, tie, pistol, scabbard and belt.
